## City of Fort Lauderdale Final Survey Checklist

### Required for all Final Surveys:

- ☐ **\*\*\*\*\*ALL ITEMS MUST BE CHECKED OFF THAT APPLY.\*\*\*\*\***
- ☐ **ALL SEPARATE ENGINEERING AND SUB-PERMITS TO MASTER BUILDING PERMIT** – must have received final engineering inspection approval where applicable.
- ☐ **(2) CERTIFICATE OF ELEVATION** – (final construction, sealed by surveyor)
- ☐ **(2) FINAL AS-BUILT TOPOGRAPHIC SURVEYS**  
**Required items on survey:**  
Elevations of building slabs and show all intended setbacks from property lines and other existing structures. Ingress + Egress required parking spaces, wheel stops, striping, and all paving from parking spaces/garages to public street. **Must have at a minimum (3) elevations along each property line and at least (3) elevations approximately 3' from the property line to determine storm water runoff is not flowing offsite.** Elevations are also required for detailing retention of storm water runoff (including right-of-way frontage and swale areas). Both will be reviewed by Zoning and Engineering.

### Where applicable:

- ☐ **HEALTH DEPT. CERTIFICATION LETTER** – (on septic and water main extensions) NOTE: If house has a new septic tank, approval letter is required from Health Dept.
- ☐ **B.C.E.P.D. CERTIFICATION LETTER** – Required for projects, which are licensed/permitted for surface water management and for projects involving wastewater system extensions.
